Waterloo Workshop on Computer Algebra

Wilfrid Laurier University, Waterloo, Canada

April 10 - 12, 2006

HAPPHAR BRUDGHT PETRION MATEMATICHE IN MATEMARI Control of the Contro

Sergei Abramov

This workshop is devoted to the 60th birthday of Sergei Abramov (CCAS, Moscow, Russia) whose influential contributions to symbolic methods are highly acknowledged and adopted by many Computer Algebra systems.

Invited Speakers

Moulay Barkatou, University of Limoges, France
Jacques Carette, McMaster University, Canada
Juergen Gerhard, Maplesoft, Canada
Gaston Gonnet, ETH Zurich, Switzerland
Kevin Hare, University of Waterloo, Canada
Claude-Pierre Jeannerod, INRIA, France
Askold Khovanskii, University of Toronto, Canada
George Labahn, University of Waterloo, Canada
Ziming Li, AMSS, China
Luc Rebillard, France
Bruno Salvy, INRIA, France
Arne Storjohann, University of Waterloo, Canada
Serguei Tsarev, Krasnojarsk University, Russia
Mark van Hoeij, Florida State University, USA
Stephen Watt, University of Western Ontario, Canada

Doron Zeilberger, Rutgers University, USA

Organizers

Eugene Zima Wilfrid Laurier University Email: ezima@wlu.ca

Ilias Kotsireas Wilfrid Laurier University Email: ikotsire@wlu.ca

This event is made possible through the generous sponsorship of the Academic Development Fund and the Department of Physics and Computer Science at Wilfrid Laurier University
